

RNA Bioscience Initiative

SCHOOL OF MEDICINE
UNIVERSITY OF COLORADO
ANSCHUTZ MEDICAL CAMPUS

Program in RNA Biology

Interested applicants should contact:

rna.bioscience@ucdenver.edu

Apply directly at:

rockyrna.org/apply

The RNA Bioscience Initiative at the University of Colorado School of Medicine invites applications for Ph.D. training with an emphasis on RNA biology. The RBI provides:

- An emphasis in graduate training in RNA biology and bioinformatics
- Dedicated funds to support RNA Scholars in their third and fourth years
- A vibrant scientific community with monthly RNA clubs in Boulder and Denver
- Opportunities to bridge RNA biology and therapy

The RNA Bioscience Initiative was started with a \$20 million dollar investment from the University of Colorado Anschutz Medical Campus. Our mission is to create and expand a center of discovery and innovation in RNA research, diagnostics, and therapy.
